

Zekariyas Mulugeta Altaye

Software Engineer

+251923049901 zekariyasmulugeta91@gmail.com https://zekariyas.vercel.app/

Summary

A Full Stack developer with 3+ years of experience specializing in Nuxt, Vue, TypeScript, and Node.js. I build scalable web applications, craft seamless user experiences, and integrate complex APIs. From intuitive frontends to robust backends, I turn ideas into high-performing digital products.

Experience	<div><div>Excellerent ethiopia</div><div>Senior software developer</div><div><ul style="list-style-type: none">Building a Next.js frontend with a Laravel backend to provide self-service telecom features (balance checks, package management, SIM info, thresholds, etc.).Integrating with Huawei CRM/Billing/OSS SOAP APIs and Telebirr payment flows to enable real-time subscriber account management.Designing a dashboard with multiple modules (personal info, SIM/security, usage history, language preferences, etc.) for subscribers to manage their services.</div></div> <div><div>Afriwork et</div><div>Frontend Engineer II</div><div>https://afriworket.com/jobs<ul style="list-style-type: none">Refactored authentication and authorization logic in a Nuxt.js application.Developed job listing and job detail pages based on Figma designs.</div></div> <div><div>eTech SC</div><div>Software Engineer </div><div>https://etechsc.com/<ul style="list-style-type: none">Led a team in designing and implementing e-commerce solutions for single-vendor and multi-vendor platforms.Developed client-side front-end using Nuxt.js 2, Tailwind CSS, Storefront, and Apollo Client.Maintain and extend an admin dashboard with AngularJS and Clarity UI.Utilized Vendure and Nest.js for backend, creating over 10 plugins including CMS, invoice, and chat to extend and new features to existing features by vendure.Deployed changes and updates to both backend and frontend systems, ensuring seamless integration and functionality.</div></div> <div><div>Pine lab</div><div>Frontend Engineer</div><div>https://plugins.pinelab.studio/<ul style="list-style-type: none">Design and implement storefront pages of a multiple ecommerce sites using vue js 3 and Astro for ecommerce site.contribute in plugin development for an ecommerce platform called <u>vendure</u> using Node js (Nest js) and angular js</div></div> <div><div>Orbit Innovation Hub</div><div>Digital Marketer & content creator</div><div>https://orbitinnovationhub.com/<ul style="list-style-type: none">Update and organize the company's website on WordPress by adding updating relevant information.Designed promotional materials for the organizationProduce and edit educational and promotional videos that introduce the service of Orbit Innovation Hub.</div></div>	<div>Aug 04 2025 - Present</div> <div>Remote</div> <div>October 2024 - Present</div> <div>Ethiopia, Addis Ababa</div> <div>Nov 2023 - Present</div> <div>Remote</div> <div>January 2021 - July 2023</div> <div>Ethiopia, Addis Ababa</div>
